

QT12 Filter

TRIPLA T4

GENERAL INFO

DESIGNED FOR MAINS WATER

Quick-Twist Undersink Filter with Tripla T4 LED 3-Way Mixer Tap

The QT12-T4 'tap & filter' package incorporates the latest QT12 filtration technology and the Tripla triple-action tap all-in-one system.

The Puretec QT12 reduces chlorine, taste, odour, chemicals, sediment and cysts, leaving all vital minerals. This innovative filter is easy to install, mounts horizontally or vertically and valve-in-head technology means the water supply is automatically cut off when you change the cartridge. The QT12 can be as easily replaced as changing a light globe!

The Tripla 3-in-1 mixer tap gives you hot, cold, filtered/or rainwater water, all from just one mixer. The filtered and unfiltered water have completely separate lines inside these taps which means there is no cross contamination between filtered and unfiltered water.

Enjoy water the way it should be, abundant, clear and beautiful tasting from your own water supply, any time of the day.

ADDITIONAL INFORMATION

Timeless Styling

With a striking yet timeless styling, the Tripla T4 has been expertly crafted, providing a sleek modern tap that will make a statement in your kitchen. The handle with the neatly integrated LED light can be easily turned to operate the filtered water and when the filter is due to be replaced the light turns from blue to red. As with all Puretec Tripla taps there is no mixing of filtered and unfiltered water.

Hygienic quick cartridge changes

The valve-in-head design shuts the water off automatically means no mess, the cartridge can be easily replaced - just like changing a light globe. Enjoy water the way it should be, abundant, clear and beautiful tasting from your own water supply, any time of the day.

Longer filter life

Using the latest carbon briquette technology that gives up to 12 months filter life. It incorporates Puretec's long life filter technology, so you can go longer between filter replacements.
