

SPARQ S4

Sparkling or still?
The luxury of choice at home

With almost 30 years in the water filtration industry, Puretec remains a family owned, family run company with an unrivalled reputation for quality, innovation and reliability.

Perfection

We know uncompromised quality and consistency along with innovation and technology is of utmost importance with water filtration – that’s how we’ve ensured Puretec water is consistent and exact. At Puretec, perfection is only just good enough.

Commitment

Our philosophy of genuine commitment to quality, value and customer service ensures that your Puretec experience will be enjoyable and world class. Puretec manufacturers to impeccable standards and we back this is up with warranties that are the benchmark in the industry.

Established

Puretec has been manufacturing and designing water filtration products since the 1980’s and every year we invest in ongoing research and development. Our far reaching experience has ensured that the Puretec product range is broad and leads the market.

Customer Service

The Puretec team is passionate about perfecting water. Call us with questions, as we are here to help. Solutions are never far away.

We trust you find your Puretec experience, enjoyable and satisfying.

The SPARQ S4 gives
you the luxury of
filtered sparkling or
still water, ambient
or chilled, right in the
heart of your home.

The luxury of choice at home

Treat your guests to the choice of filtered and chilled sparkling or still water and bring a little luxury into the heart of your home.

Filtered and chilled

Puretec's premium grade filtration means that you can enjoy chilled, beautiful tasting water, free from odours and chemicals.

Affordable luxury

The SPARQ S4 is surprisingly cost effective, which means it's a luxury you can afford.

A modern interior scene featuring a white LED panel, a bowl of oranges and lemons, and a window with white curtains. The scene is brightly lit, with a clean, minimalist aesthetic. The LED panel is a large, rectangular, white surface that appears to be part of a wall or a large piece of furniture. In the foreground, a dark brown wooden bowl is filled with several bright orange oranges and a few green lemons. The background shows a window with white curtains and a dark wood paneling on the wall. The overall atmosphere is bright and airy.

*A simple touch on the
stylish LED panel will give you
filtered water, sparkling or still,
ambient or chilled to perfection.*

The SPARQ S4 gives you the convenience of fresh, clean, healthy drinking water every day.

Increase your water intake

With sparkling water available on demand, you can spice up your daily water drinking habits. No more sugary soft drinks, just fresh clean water that you can drink all day with the SPARQ S4.

Fresh and clean drinking water

The SPARQ S4 delivers clean, clear, beautiful tasting water, straight from the tap. You'll no longer have to put up with the smell and lingering bad taste left by the chemicals and additives in normal tap water.

Save money, reduce waste

Reduce the number of plastic water bottles you throw away. With the SPARQ S4, you can fill up your own reusable bottle with fresh, filtered sparkling or still water, anytime.

The heart of Puretec's SPARQ S4

MultiStage Filtration System

Using the latest Silver Plus carbon briquette technology, the filtration system will purify the water in a multi-stage process. Puretec's long life filters usually only require changing once every 6 to 12 months. The quick-twist cartridge can be easily replaced. It's just like changing a light bulb.

Puretec's carbon filtration technology, the system will reduce the levels of chlorine, pesticides, odours, rust, dirt sediment, algae and chemicals in your drinking water. It also removes 99% of Cryptosporidium and Giardia cysts, which are known to cause nasty intestinal illnesses.

Chilling the water

The SPARQ S4 includes a built in cooling system that chills the water for a refreshingly cold drink. You can choose between ambient or chilled when dispensing still water. The sparkling water is delivered chilled only.

Carbonation System

Once the water has been purified, it can be delivered either sparkling or still. If sparkling water is selected, the system injects CO2 gas into the water stream as it is dispensed. This gives you chilled, fresh water with just the right amount of sparkle. The CO2 canister is easy to replace, and usually lasts between nine and 12 months, depending on individual use.

Ambient

At times you may prefer your drinking water to be at room temperature. With a touch of the button the Sparq S4 system instantly delivers beautiful ambient purified water.

The SPARQ S4 is easy to use and easy to maintain

Sleek and contemporary

Sleek lines, elegant styling and a smart LED touch pad, makes the SPARQ S4 the perfect finishing touch to your kitchen or entertaining area.

Alerts & safety

When the tap is active, the LED ring around the tap will be blue. Touch it once and it changes to green and is ready to dispense. The LED touch pad will also alert you if the system has detected a fault. It will flash the LED lights and sounding an audible alarm from the under sink unit.

Smart LED Touch Pad

The SPARQ S4 features a smart LED touch pad that makes it easy to use and maintain the system.

Longer filter life

With Puretec's latest technology, your filter will usually last between six and 12 months. When it is time to replace it, the quick-twist system makes it easy to do yourself.

Compact under sink system

The compact and stylish under sink system has been designed to fit beneath most kitchen benches, saving you precious bench space.

Quick Installation

The SPARQ S4 can be installed wherever there is mains water access, and the sleek filtration unit is designed to fit under most kitchen benches. The initial set up requires a visit by a qualified plumber, who should have the unit installed and ready to use in less than 90 minutes.

Technical Information

SPARQ S4 Product Specification

MODEL	SPARQ S4
Filtration	1 Micron MultiStage using Silver Plus technology
Cold Temperature	4°C to 10°C.
Capacity	20 Litres per hour
Filter Capacity (SPARQ-RC)	12,000 Litres (6000 per cartridge)
Maximum Power Consumption	Direct chill system 100W
Warranty	1 Year [^]
Weight	18 kg

[^]1 Year Platinum Protection applies to Puretec Systems when used in conjunction with a Puretec filter cartridge. Warranty is 1 Year parts and labour where applicable subject to approval.

Installation Requirements

Water Connection	1/2"
Power requirements	Standard 10amp power outlet (earth leakage protected)
Max. recommended inlet pressure	500 kPa
Required hole for the tap	33-35mm (max)
Ideal undersink dimension	(w x d x h) 750 x 660 x 520mm
