*“Contemporary art for your kitchen. Turns a beautiful kitchen into a distinctive one.”*

Innovative triple action.  
No need for a second tap.

A

#### A. Filtered Water Outlet

Completely separate outlet filtered water so there is no mixing of filtered and unfiltered water.

#### B. Hot and Cold Lever

The hot and cold lever uses a ceramic disc cartridge to ensure smooth and long lasting handle movement, it also prevents the mixer from heating up as water is mixed inside.

#### C. Filtered Water Lever

Turn the filtered water lever to dispense pure water for drinking and cooking from the separate outlet.

#### D. Water Inlet Connection

Hot, cold and filtered water each enter the tap through one of three dedicated connection points.

#### E. Mains Water Filter System

The Tripla taps can all be ordered with a filter system that will then turn your town water supply into 'spring-like' water on tap.

#### F. Rainwater Filter System

Selected models from Tripla range come with a filter system designed for rainwater. These systems ensure you have safe, bacteria-free water for drinking.

# The heart of your home deserves Puretec Tripla.

## Timeless Styling

It's surprising how much difference the right tapware makes. It's not just a complementary addition, it's a genuine finishing touch. A subtle, yet unmistakable enhancement that draws together all the elements in your kitchen and entertaining areas, to create a graceful and cohesive living space.

## Innovative Engineering

We've been designing and manufacturing tapware since 1989 – for both domestic and commercial applications. And every year, we invest in ongoing research and development. So our technologies are constantly advancing, which means our products are constantly improving. The Tripla's intuitive single-mixer delivery of hot, cold and filtered water is a perfect example.

## Impeccable Quality

Our impeccable manufacturing standards are derived from our commercial operations, where there's no margin for error. As a result, the entire Tripla range is WaterMark approved and WELS rated, and every Tripla product comes with a 6-year warranty.

## Hot, Cold & Filtered Water

Sleek, contemporary lines, effortless function, guaranteed durability... Tripla tapware makes a difference. It's an understated presence that turns a beautiful kitchen into distinctive one, and gives you hot, cold and filtered water, all from a single mixer.

## Easy Installation

Puretec Tripla tapware is designed to be quickly and easily installed. Whether you are changing over an existing mixer or fitting it in a new kitchen, installation is completed in a matter of minutes.

## Purified Water on Tap 24/7

The Tripla taps combined with a filtration system ensure that you have pure, refreshing drinking water or tap 24/7. No more lugging of bottled water.

## Tripla BL1 Series

With its matt black finish and chrome highlights, the Tripla BL1 is everything modern tapware should be: clean and classy. But its appeal is more than cosmetic. There's a lot of practicality working alongside those striking looks: plenty of clearance and height for filling bottles and jugs, and for washing up. Plus, a chrome lever on one side will give you filtered water, while the lever on the other side will dispense hot and cold tap water. The Tripla BL1, like all Puretec Tripla taps, does not mix filtered and unfiltered water.

# Tripla BL1 Series

Puretec Tripla BL1 with Undersink Filter Systems

## Mixer Tap and Filter System for Mains Water (Model: Z1-BL1)

The Puretec Quick-Twist filter is easy to install, either in a horizontal or vertical position. The system comes with all the required plumbing connections for standard installation, and is specifically designed to work with Tripla tapware. This combination includes the Z1 series filter and the Tripla BL1 mixer.

**Note:**

To order the tap without a filter, use the code: **TRIPLA-BL1**

### SPECIFICATIONS

## Tripla BL2 Series

All black tapware with all round appeal – the Tripla BL2 is right at home in city apartments, country mansions, and every type of property in between. That’s the beauty of contemporary matt black tapware – it’s a perfect fit with just about every colour scheme and every surface. With separate levers either side for filtered water and hot and cold tap water, the Tripla BL2 is versatile in function as well as setting. The Tripla BL2, like all Puretec Tripla taps, does not mix filtered and unfiltered water.

# Tripla BL2 Series

Puretec Tripla BL2 with Undersink Filter Systems

## Mixer Tap and Filter System for Mains Water (Model: Z1-BL2)

Installation of The Puretec Quick-Twist filter is quick and easy, and it can fit into place horizontally or vertically. All plumbing connections are included with the system for standard installation, which has been designed to work with Tripla tapware. This combination includes the Z1 series filter and the Tripla BL2 mixer.

**Note:**

To order the tap without a filter, use the code: **TRIPLA-BL2**

## Tripla BL3 Series

A modern classic. It's easy to imagine the Tripla BL3 in a country kitchen with its blend of traditional aesthetics and contemporary functionality. Matt black, heritage handles and striking lines give this tapware its vintage appeal, while its ability to dispense filtered water, as well as hot and cold tap water, meets today's demands for pure drinking water. The Tripla BL3, like all Puretec Tripla taps, does not mix filtered and unfiltered water.

# Tripla BL3 Heritage Series

Puretec Tripla BL3 with Undersink Filter Systems

## Mixer Tap and Filter System for Mains Water (Model: Z1-BL3)

The Puretec Quick-Twist filter is easy to install, and will work in either a vertical or horizontal position. The system includes all necessary plumbing connections for standard installation, and is specially designed to operate with Tripla tapware. This combination includes the Z1 series filter and the Tripla BL3 mixer.

**Note:**

## Tripla T6 Series

The clean sleek lines of the Tripla T6 have created a minimalistic tap that whilst providing the practicality of lots of clearance for jugs and washing up, it still complements any modern kitchen décor. The handle with the neatly integrated LED light can be easily turned to operate the filtered water and when the filter is due to be replaced the light turns from blue to red. As with all Puretec Tripla taps there is no mixing of filtered and unfiltered water.

# Tripla T6 Series

Puretec Tripla T6 with Undersink Filter Systems

## Mixer Tap and Filter System for Mains Water (Model: Z12-T6)

The Puretec Quick-Twist filter installs easily, either in a horizontal or vertical position. It comes with all the plumbing connections you need for standard installation, and is specifically designed to work with Tripla tapware. This combination includes the Z1 Series filter and the Tripla T6 mixer.

## Mixer Tap and Filter System for Rainwater (Model: ESR2-T6)

The ESR2-T6 System includes the Tripla T6 mixer tap and an undersink ultraviolet system designed to kill bacteria. This ensures that your rainwater is safe and healthy to drink. All fittings for standard installation are included.

**Note:**

To order the tap without a filter, use the code: **TRIPLA-T6**

## Tripla T2 Series

A traditional compact design, the Tripla T2 gives you hot, cold, filtered/or rainwater water, all from just one mixer. The main handle controls hot and cold mains water, and the lever under the spout controls filtered mains/tank water. Just turn it clockwise and your filtered water is delivered via a separate tube and outlet, inside the mixer itself. There's absolutely no mixing of filtered and unfiltered water.

# Tripla T2 Series

Puretec Tripla T2 with Undersink Filter Systems

## Mixer Tap and Filter System for Mains Water (Model: Z1-T2)

The Puretec Quick-Twist filter installs easily, either in a horizontal or vertical position. It comes with all the plumbing connections you need for standard installation, and is specifically designed to work with Tripla tapware. This combination includes the filter and the Tripla T2 mixer.

## Mixer Tap and Filter System for Rainwater (Model: ERS2-T2)

The ESR2-T2 System includes the Tripla T2 mixer tap and an undersink ultraviolet system designed to kill bacteria. This ensures that your rainwater is safe and healthy to drink. All fittings for standard installation are included.

**Note:**

To order the tap without a filter, use the code: **TRIPLA-T2**
